SUPPORTING HOST:

WE ARE PLEASED TO WELCOME YOU to the 2021 virtual NGS 2021 Family History Conference. On behalf of the National Genealogical Society Board of Directors, our staff, committed volunteers, and our supporting host society, the Virginia Genealogical Society, we thank you for attending. We hope the conference events will help push your genealogical knowledge to the next level.

This is our forty-third annual conference, and the second year we have offered our entire program virtually. The NGS conference committee has created a powerful program of virtual events for individual family historians, societies, and organizations that stretch over five days, 17-21 May 2021.

On behalf of NGS, I want to thank the Virginia Genealogical Society (VGS), the 2021 Supporting Host Society. Mary O’Brien Vidalak, CG, president of VGS, and Teresa Kelley, local Conference Chair, led the committee that tirelessly helped shape and plan the 2021 conference originally scheduled to take place in Richmond, Virginia. The VGS team was instrumental in helping transition the conference to an all-virtual program. I also want to thank the many members of the national NGS team, including members of our board, staff, speakers, conference committee, and volunteers who made this excellent program possible.

The NGS Family History Conference is created for family history researchers at all levels—beginner, intermediate, and advanced. The breadth of session topics presented as part of NGS Live! and the eighty-five on-demand sessions are designed for attendees to personalize their learning experience and build their skills in diverse areas including BCG Skillbuilding, DNA, African American and Heritage Resources, Immigration, Land and Military Records, Migration, Methodology, Religion, Writing and Documentation, and much more.

Organizational mentoring and assistance are now an important part of our annual event. During the conference, we will collaborate with society leaders, librarians, and archivists to share ideas and strengthen our genealogical community. For those who help manage organizations that offer genealogical support, we have a full day, Focus on Societies, devoted to lectures such as Communicating to Members, Managing Events, and Going Virtual. The SLAM! Idea Showcase event will allow attendees to benefit from presentations by information specialists who serve genealogists and to learn more about successful endeavors that we can adapt for our own organizations.

The full week of virtual events is described in this program. Make sure you don’t miss our featured events, NGS 2021 Live! and NGS On-Demand! starting 15 June. Take advantage of the discounted early bird registration fee plus member discounts when you sign up by 15 March for NGS 2021 Live! or NGS On-Demand! packages. Registration is open at conference.ngsgenealogy.org.

An important part of our success and ability to bring you a quality conference is the generous support of our sponsors. At the Platinum level, this includes Ancestry, FamilySearch, and FamilyTreeDNA. We also want to recognize our sponsor Vivid-Pix and we extend our thanks to the genealogical societies and organizations that sponsor lectures. Without the support of so many, including our speakers, exhibitors, and terrific volunteers, our programs would not be possible.

Thank you for supporting the National Genealogical Society and our conferences. We wish you an enjoyable virtual genealogical journey with us during the week of 17-21 May. We hope what you learn at the NGS Family History Conference brings you closer to your full family story.

Kathryn M. Doyle, President

2021 CONFERENCE SPONSORS—THANK YOU!

On behalf of the Virginia Genealogical Society, we welcome you to the Virtual NGS 2021 Family History Conference. We wish we were able to welcome you to our wonderful state in person as we had intended. Unfortunately, COVID-19 disrupted those plans. NGS was compelled to change to this virtual program due to ongoing state mandates in regard to COVID-19 and their concern for the well-being of all. Although we are disappointed to not be able to greet you in Richmond, we know you will enjoy the presentations and activities of the conference.

The two days of NGS 2021 LIVE! offer terrific sessions for all family historians. The program on Wednesday opens with a presentation on tracking migrating Virginians. Throughout the day and on into Thursday, there are multiple presentations to help develop your genealogical skills and enhance your knowledge, including many sessions with a focus on Virginia. Thursday ends with our VGS sponsored event—a visit from the Marquis de Lafayette, the Frenchman whose support led to America’s independence.

The opportunity to learn continues in June with the On-Demand Lecture Series. These lectures cover an array of subjects, including six lectures on African American genealogy, four lectures concentrating on Migration, and nine lectures on Virginia genealogy. Purchase of a package offers an opportunity to view these presentations as often as desired through the end of 2021.

VGS would like to thank NGS for choosing us to host the 2021 conference. We also want to acknowledge the VGS committee members who spent months preparing for the in-person event. We all hope to welcome you soon—in person—to our beloved Virginia.

Regards,

Mary

We will celebrate the American mosaic and share how to discover our unique family history in Sacramento, 25-28 May 2022 at the National Genealogical Society Family History Conference.

During four days of lectures, luncheons, and events, attendees will choose from more than 150 lectures by the nation’s premier genealogical speakers. We encourage family researchers at all levels—from beginner to professional—to benefit from this opportunity to build their skills in genealogical research and contribute more of their history to the American mosaic.
